

A NIB Eflite Carbon-Z Splendor - 54.5", bind-n-Fly with AS3X receiver. All you need are batteries and a transmitter. Uses 6S 3000-3300 mAh batteries. It's just like the one I Fly (just not beat up). It's a great pattern/sport plane.

Last chance to get this bargain before I offer it on RC Groups; just \$200 (\$175 if I keep the receiver).

PRICE: \$200.00
